Comment

1, We included in the core values the provision that "ICANN must carry out its activities in accordance with applicable law and international law and conventions", Is there a need to repeat here the ICANN commitment to respect internationally recognized Human Rights? Aren't they included in the applicable international law and conventions mentioned in the core values? 2, You said that a legal advice told you that upon termination of the Contract, there would be no significant impact on ICANN's Human Rights obligations, So why you insisted on inclusion of additional language??? 3, Despite the fact that you were advised that no significant impact on ICANN's HR obligations would be brought by the transition, and that the core values included the obligation of ICANN to comply with the international law and conventions that already include HR, you propose to add an interim bylaw provision because the issue of HR will be extensively addressed in the Work stream 2, I find this absurde,
