Open for Comments Now

A vital element in ICANN's processes is the opportunity for public comment on each substantial piece of work before it is considered for approval. This page contains summary data for topics that are currently OPEN (Last-in-First sequence) with links to relevant announcements, documents, comment locations, and reference sources that can provide fuller descriptions and background information where applicable.

Each public comment topic is subject to a Comment and a Reply period as follows:

- *The official minimum Comment period is 21 days.*
- *The official minimum Reply period is 21 days.*
- *If no substantive comments are received during the Comment period, then there will be no Reply period.*
- *During the Reply period, participants should address previous comments submitted; new posts concerning the topic should not be introduced. When constructing Replies, contributors are asked to cite the original poster's name, comment date, and any particular text that is pertinent.*

All posts to the ICANN Public Comment Forum follow the ICANN EXPECTED STANDARDS OF BEHAVIOR.

Important*: Comments submitted after the posted Close Date/Time are not guaranteed to be considered in any final summary, analysis, reporting, or decision-making that takes place once this period ends.*

®©™ are symbols of sub-set Generic Top Level [gTLDs] Domains of United States of America sub-set South America as a geographic domain international or United States local North West of North America, Continent of Canada and North East local to New York, New York, metropolitan city. Primary concern refer to regulated guidance on Industry Sectors of different literal or literary and rationale perceptions since Western Union of the Telephone & Telegraph invention to communicate with technology primary express transport. Military Control ideologies since Arpanet on 1st draft Internet connectivity have gone wild express because education travel and qualification on loan package identity have been relentless surfing freedom to intellectual support and Social Influence which now is a competitive fallacy to immigration on DNA or Birth Paper or Visa or Passport or Citizenship legacy. Twitter, Facebook and Networking Platforms are the upgrade of a Private Small Business LOGOS after infatuation with graduation to pay bills and compass a PIC in public interest share of staff involvement. Not a high priority as before as Geography is shifting again the intent of Capitalism and Cellular activity to higher continents of Discovery filming or TIME journalism or industrialism on a private.net or commercial.net. The Commons are not cooperating as before and falls below average support to own primary business as in public pay off of debt and is eager to stay connected to a Domain.

Support Salary beyond age +40 years

   The ruling **patriarch** or the ruling Matriarch prior to Parliament has sub-set Prime-Ministers to .Gov by Title or Private business links ie: Burberry to consumer sales market. The Prime reality from a Top Technological service leaders ie: Apple, Dell, Sony, Hewitt Packard and others have slowed in the Northern Continent and a primary switch other than education have re-routed many affiliates to search and seek out exploration on larger Continents ie: Apple on Western Asia. The working field to anchor labor support via

education title like a GDS, Associate Degree, Bachelor's Degree, Master's Degree and a Technical Degree have to compete as a grouped Alumni or single identity to support the active jobs of Tourism, Travel, Hospitality, Agriculture, Journalism, Home Care Essentials and expire at force age 40-50 reckless of others in visual vitals of model or mannequin perfection or Military credentials or Veteran Family can expire the experienced work force. There is a negligence gap concern on transformation of these groups. The expense and cost have deferred many years its support of Humanities and Arts guidance using the Internet Platform and now have cut off adults to self-service Professional links like Blogging on a Internet Type Pad.com service medium to continue its present advocacy of modern technology.

The proper breeding of a high Bank ie: Bank of America or Chase or Citi Bank along with Insurance needs ie: Geico, Progressive, All-State, State Farm and Nationwide is ever increasing in cost to own or operate a License.

The legal Community have a radius electromagnetism to attract a client-server relationship and will enforce as well as "Hack" the firewall to gain entry. The Security encryption certificates of a firewall and the software application on a "HAL" Hardware Access Layer is the error of string or user Identity to operate under an approved group with a legal identity badge labeled Technician. Furthermore, the social influence or average Identity user purchasing the product is where the string error occurs and is usually deactivated on a public sector like Yahoo.com using it's free e-mail.   So the recommendation is a Press release or a feed burner to access information or data to the general public or active support Labor FIELD on White Noise significance a a .GOV or .Net to Internet Explorer options in choices of Domains and sub-domains status to Capitalism or primary family-owned history for approved client-server relationships to continue.

This is a lengthy proposal comment to staff but it does affect my continuance to social influences of LOGOS to segregate or narrowband the bandwidth it uses for cost effectiveness and balance of a community and keep my laptop or E-Reader or I-Pod and Desk Top Personal Computer with Autism a high priority within the leadership community.

Thank you.

Shelly Garcia
