Accomplishments this period

DSSA

Continued building/evaluating the threat-source threat-event tree for non-adversarial threats
Reviewed and commented on the "confidential information" draft
Published a first-draft of a top-level architecture mind-map for review/comment

DSSA Ops Group

Debriefed on the process of unpacking the meeting/scribing/voting
Katrina's comments on confidential-information draft.
Realized that we need a better rationale for the "vouch-in" approach we're taking to building confidential sub-teams (vs the "object-out" approach)

Plans for next period

Take a look at splitting up the "scribing" work a bit so that others can take over if Mikey is disabled

in a cattle stampede
