

Introduction to the GNSO Working Group Supplementary 360 Assessment

Welcome to the Generic Names Supporting Organization (GNSO) Working Group Supplementary 360 Assessment! This Assessment complements the [main GNSO 360 Questionnaire](#).

The purpose of this brief Supplementary 360 Assessment is to seek your views on a specific GNSO Working Group. You will be asked which Working Group your responses are in reference to. If you wish to provide feedback on more than one Working Group, please complete this brief survey once for each Working Group you are providing feedback on.

The 360 Assessment, including the Supplementary 360 Assessment, has been formulated and implemented by the Independent Examiner, Westlake Governance. The data collected via this survey will be summarised and analysed by Westlake, and used as an input into the overall GNSO Review.

Some questions are mandatory and some are optional. Mandatory questions are marked with an asterisk (*).

Many questions provide a text field for your comments. Most of these fields are limited to 600 characters. If you wish to provide more input than will fit into the field, please note it in the final comment section or email Westlake Governance at gnsoreview@westlakegovernance.com.

1. Westlake will maintain your confidentiality. We will not identify you in material we quote or share with the GNSO and staff unless you grant us specific permission by ticking the box below.
