Accomplishments this period

Summarizing since the last status report -- we've collected a great set of comments from those AC/SOs that have prepared them. We're missing comments from the Registries and Registrars but I think we'll just have to proceed without them. "Expert group" is assembled but we haven't made any progress developing questions for them to answer. Subgroups are stalled -- we need to decide whether this approach was a mistake.

Plans for next period

Decide whether to continue the subgroups approach or revert to a committee of the whole
Lay out a revised set of milestone dates
Review the summary of the email conversation of this week (especially "privacy" topic)
Review a risk-assessment framework to see if it's useful

Issues and concerns

We're starting to slip fairly badly and need to take a look at our approach and timeline, given the deadlines associated with Beijing. I'm hopeful that Registry and Registrar comments will be rolling in soon, but I think we're going to have to get under way regardless.
