Subj: Please do not support the creation of a XXX domain

Members of the Board

As a grandmother of the next generation, I do not want more pornography to be thrust into the media stream. The damage to individuals and families is incalculable.

Neither ICANN nor the company urging the establishment of this new domain are arguing that the .XXX domain would clean up the .COM domain and require all pornographers to move to .XXX. The .COM domain is a cash cow for pornographers and they are not leaving it. ICANN has no enforcement powers to make them leave and thus clean up .COM. Pornographers would simply expand to .XXX and maintain their current .COM sites, perhaps doubling the number of porn sites and doubling their menace to society.

Please do not create a .XXX domain.

Sincerely,

Terry Jean Day
