APTLD Reply to Public Comments Requested on Draft Topic Paper for Policy on Introduction of Internationalised ccTLDs

This document refers to the captioned request published at <http://www.icann.org/en/announcements/announcement-04nov09-en.htm>.

APTLD would like to ask how the Draft Topic Paper will address the practices relating to the maintenance of the repository and requirements for an IDN table. The issue was pointed out on page 5 of the IDNC Working Group Board Proposal dated 25 June 2008 (<http://ccnso.icann.org/workinggroups/idnc-wg-board-proposal-25jun08.pdf>).

We hope the Working Group will take this issue into consideration upon finalising the Topic Paper.
