

Analysis/Summary of Public Comments on the RSSAC Review Draft Final Report

The WG appointed to carry out the review of the Root Server System Advisory Committee (RSSAC) issued its [draft final report](#) in April 2010. In this report, the RT presents its conclusions and recommendations issued on the basis of the external review conducted by Westlake Consulting as well as community feedback on the final report published by the selected independent consultants.

The WG draft final report was then opened for public comment on 27 April 2010 and closed on 5 June 2010.

No comment was submitted in response to the WG draft final report. However, the public comment box contains 5 inserted entries on the .XXX TLD.

The WG shall now proceed to the finalization of the report for Board submission.
