

1 April 2010

Dear ICANN,

I was horrified to hear that you are considering creating a .xxx top-level domain. THIS IS A HORRIBLE idea! NOTHING good will come of this and will only contribute to an extremely destructive addiction we have in our society. You have GOT to be out of your mind if you think this will help control, isolate or restrict this damaging material. It will only INCREASE it! **DO NOT create this new top-level domain!!**

A handwritten signature in black ink, appearing to read "Jeff Bush". The signature is stylized with a large, looping "J" and "B".

Jeff Bush,

Millbrook AL
