Dear Chairman Dengate Thrush and Members of the Board:

Christian Educators Association International (CEAI) is a professional association for Christian Educators in public and private schools. In serving our over 7,000 members we provide them with resources that include an on-line career center.

I am writing on behalf of *CEAI* to urge you to reject *Employ Media's* request for authority to permit second level registration of strings that do not correspond to an employer's name in the .jobs sponsored top level domain. *CEAI's Career Opportunity Center*, which would be directly and adversely affected, opposes the unilateral expansion of the .jobs charter to encompass regional and industry-specific second-level registrations.

I hope you will consider our objection as your review the suggested changes negatively impacting organizations like ours.

Sincerely,

Finn Laursen
Executive Director
